## ABOUT STEPHANIE

As an author, speaker, disability advocate, and trauma survivor, Stephanie partners her unique humor and wit with the unashamed acceptance of struggle in the present tense. Her radical candor and transparency paired with her extensive work exploring the theology of suffering for her book, *The View from Rock Bottom*, make her viewpoint vitally refreshing in an industry often overrun with relentlessly positive and ultimately empty affirmations. From her home in Salem, Oregon, where she lives with her husband and two sons, Stephanie has harnessed her experience, writing her intimate understanding of pain into messages that foster healing within the Kingdom of God.
